

RECOMMENDATION LETTER

It gives me immense pleasure to strongly recommend **Mr. Abdulhadi Fahad Albear** for a faculty position in your esteemed institution. I am making this recommendation based upon his excellent communication and presentation skills and his ability to understand and solve complex problems.

I had the pleasure of teaching him, **Machine Learning - CPCS 687** during his Master's program. He was keen to ask questions in class, participate in discussions and was always interested in finding answers to questions. He was punctual in class, completed his assignments in time and his hard work resulted in him getting an A grade and the highest marks in the class. In my last 7 years teaching at University of Jeddah, I would rate him among the top 5% students that I have come across.

I also had the pleasure of being the advisor of his thesis which was related to identifying link between COVID and eating habits of people. The premise was that if eating habits affect the health of individuals and the health of individuals is linked to fatality in COVID cases then can a link between eating habits and COVID cases or fatalities be established. He searched and used real data from UK related to these features. He explored the possibility of linear or non-linear relationships between them. He was able to publish his findings in an IEEE conference.

Abdulhadi is a very good student who works well in a team but also has the potential to be a team lead. He has excellent communication skills and work ethic. Based on all the above-mentioned points, I strongly recommend him for your institution.

Please do not hesitate to contact me if you need more information from me on this matter.

RECOMMENDATION LETTER

It gives me immense pleasure to write a letter of recommendation for Mr. Abdulhadi Fahad I Algbear. He is one of my very good students during the Master Program.

I have taught him, **Advance Computer Networks - CPCS 505 and Cloud Computing – CPCS 689**. In my last 6 years teaching career, I have come across a far-ranging of students. Considering all his personal qualities, I would place him among the top 10% of all the students.

Mr. Abdulhadi Fahad I Algbear was very active in all class participations. He has much better common sense to solve the problem compare to many other students. I always found him with positive energy and has the ability to socialize with fellow students with different backgrounds.

Based on all the above, I strongly recommend him for your organization.

Please do not hesitate to contact me if you need more information from me on this matter.
